

Helping Handle™

Model # 20120 (Gray)
Model # 20121 (Black)

Get In Or Out Of Any Car With Ease!

Great for anyone who needs a little extra help getting in or out of vehicles.

THE EXTRA HAND YOU NEED

Getting in and out of the backseat can be a chore for many. As we get older it can become harder and harder to do this. The Car Butler® Helping Handle is the solution to this problem. Attaching to the front seat headrest, the Helping Handle is the extra hand you need to easily get in and out of the car. Now you have an easy to grab assist to help you get in and out of your vehicle.

ATTACHES EASILY TO THE HEADREST OF MOST CARS

Just slide the Helping Handle onto the post of any front seat headrest, and then put the headrest back as you normally would. Once attached, the handle won't interfere with the front seat passenger. The low profile handle is large enough to offer a good grip, but small enough to remain unobtrusive to the rear passengers.

With the Helping Handle, you never have to worry about struggling to get in or out of the car again!

Model # 20120

Model # 20121

INCLUDES
