

With Motion-Activated Light

Park perfectly every time!

The newest addition to the Garage Laser Park family is the Park Right® Dual Garage Laser Park with a built in Motion Activated-Light. Now in addition to helping you park perfectly every time, our motion activated light will help you see better in your garage.

HELPS PREVENT DAMAGE TO YOUR CARS OR YOUR GARAGE

Built-in lasers show you where to stop. When the laser hits a predetermined spot on your car, you'll know you've parked perfectly. No more dinging your car on that refrigerator, lawn equipment or bicycle stored in the garage. No more worries about if I'm in the correct spot. Dual lasers are perfect for a two car garage.

Motion Activated LED Light

No more reaching for the light switch when going into the garage with your hands full. This light comes on when it sees you. The motion activated light helps prevent trips or falls as you enter or exit your garage.

INCLUDES

- Dual Laser Park Module
- 1 AC Adapter
- Mounting Hardware - Mounting Bracket, Screws, Double Sided Tape
- User Guide
- 90 Day Warranty

PREVENT DAMAGE TO YOUR CARS AND GARAGE
