

Solar-Powered Swirl Scope

Model #41690

Festive light all year long!

Decorate your home with brilliant light!

Your house or yard will twinkle all night long with a weatherproof Maxsa Solar Swirl Scope. When dusk arrives, your home's façade and landscape will sparkle with swirls of light; choose either a kaleidoscopic swirl of blue, red and green light or sparkling white orbs to project onto your house and landscape features.

Family, neighbors, and guests will be treated to your house or yard coming alive; choose between swirling orbs and stationary patterns for a joyful summer evening or welcoming winter display. No longer will you need to have a ladder to decoratively light the tops of trees and the second story of the house.

Simply place the all in one unit containing the solar panel, projecting light, and mounting spike anywhere in the yard to create an amazing outdoor display. Let your evenings shine with movement and illumination created by the MAXSA Solar Swirl Scope.

INCLUDES

- All in One Swirl Scope with Solar Panel, Projecting Light, and Mounting Spike
- User Guide
- 1 Year Limited Warranty

Why is this useful to me?

- Bathe your home in festive light.
- Decorate your second story. No ladder needed!
- Choose either a kaleidoscopic swirl of blue, red and green light or sparkling white orbs.
- No need to run electricity, solar powered!
- Installation is easy!
